

## Facilities Positions at Windsor Park

Windsor Park, a Covenant Retirement Community, is growing and we are seeking qualified candidates for several positions in our Facilities Management Department. Each of these positions is responsible for providing general maintenance services throughout the Windsor Park campus and reports to the Facilities Maintenance Supervisor. We are looking for:

- Facilities Management Mechanic – this is a skilled position with four years of experience and strong skills in at least two of the following HVAC, auto/small engine mechanics, appliance repair, plumbing, electrical, emergency generators, sprinkler systems, and/or carpentry.
- Facilities Management Mechanic – this is a semi-skilled position with two years of experience in a facilities management service position.
- Facilities Management HVAC Technician – this is a skilled position requiring education in electrical systems and HVAC certification, including classes in advanced controls. A minimum of six year experience in a facilities service position is necessary.
